

AVI-SPL's Virtual Meeting Room

AVI-SPL's Virtual Meeting Room (VMR) Collaboration Services consolidate real-time conferencing tools – voice, video and web - into a single solution, allowing users to connect anytime, anywhere with any device.

AVI-SPL's suite of vendor-agnostic VMR solutions are designed to meet each customer's unique consumption and architectural needs.

AVI-SPL's VMR Advantage

- Connect standards-based and software-based clients into one call
- No reservation needed – easy as making an audio call
- It's your personal conference room without walls – available 24/7/365
- Enterprise-grade security and quality
- Interoperable with H.323, SIP, Microsoft Lync, WebRTC and audio

Connect From Any Device

Whether in the office or on the go, join meetings anytime, anywhere from any device.

- Video endpoint
- Desktop/laptop
- Tablet
- Smartphone
- Office phone

Content Sharing Is Easy

- Share and view data wirelessly to enable real-time, in-meeting collaboration .
- Compatible with H.239, BFCP, RDP and WebRTC content sharing

Choose Your VMR Solution

- By partnering with the market's leading manufacturers, AVI-SPL is able to deliver the features and pricing models that best fit your operational, IT and financial needs. Select from the newest generation technologies:

Flexible Deployment Options

Choose from one of four different deployment models for the VMR that best suits your operational, IT and financial needs.

Deployment Options Benefits

- **As-a-Service Cloud:**
 - OPEX/Pay-As-You-Go/Subscription
 - No need to acquire or deploy infrastructure
 - Rely on 24x7x365 constant monitoring and maintenance by trained professionals
- **Hosted Private Cloud:**
 - All resources - hardware, network, etc. - are dedicated exclusively to your organization
 - No need to store hardware on premises
- **Private on-Premises:**
 - Direct and immediate control and access to all resources
 - Equipment operation maintained professionally and can be easily adjusted as needs change
- **Hybrid:**
 - Add cloud computing resources to your environment without abandoning your existing on-premises hardware investments

Purchase Options

Choose the pricing plan that best fits your needs.

- **Per Port:**
 - Pay only for the ports that are used; quickly add more as need grows
- **Per User:**
 - Pay only for the number of licenses you use
- **Payment Terms Options:**
 - Month-to-Month, Pay-As-You-Go subscription
 - Annual and multi-year commitments at discounted rates
