

# SMART solutions for **HIGHER EDUCATION**

## **SMART Board® Interactive Displays & SMART Podium**

SMART's range of flexible solutions is purpose-built to make learning spaces more dynamic and connected. Easy to use, deploy and support, SMART solutions for Higher Education institutions enhance in-room and remote learning and simplify the transition between the two.

SMART provides large format interactive displays and interactive pen displays with easy AV integration that meet the demands of your teaching staff, while providing a connected experience that attracts and engages modern students.

# There's a SMART display for EVERY LEARNING ENVIRONMENT

Choose from three SMART products engineered to fit every instructor, student, AV setup and budget.

Products not shown to scale. † Select regional availability ‡ Subscription included with iQ enabled models for length of included product warranty term

# A hub for all your **CLASSROOM TECHNOLOGY**

Get more from your technology and infrastructure investments, with a solution that connects them together for easier, more effective use.

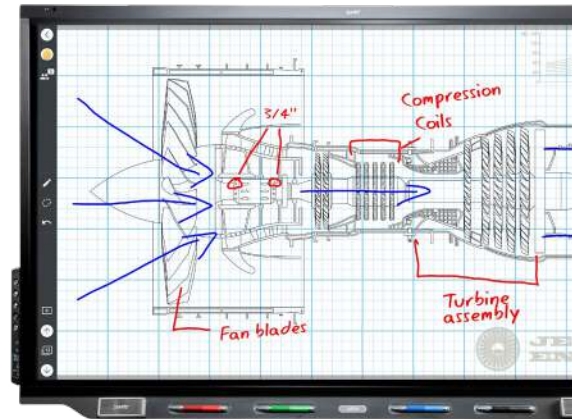

## **Built-in USB hub**

Plug in multiple computers and video inputs to your SMART display with iQ, then easily switch between them with live input preview. Any USB peripheral (UVC webcam, keyboard, mouse and more) plugged into the SMART display can be used across any connected device.

## **Experience better video conferencing**

SMART displays work with UVC webcams, Zoom, Google Meet™, Microsoft Teams™ and more. Deliver lessons while sharing screens in these applications, and enhance them with digital ink and tools to focus students' attention.

## **Use digital ink with any application**

SMART Ink desktop software gives instructors the power to mark up anything, anywhere – even in applications without ink tools. Add and move notes, erase, or even convert ink to text on the fly - all without the distraction of changing pens or tool settings. Works fluidly with Windows Ink.

## **SMART Podium** **Make anything interactive**

The SMART Podium interactive pen display connects to your projectors, displays and computers in the classroom and at home to add interactivity everywhere. Easy to use, deploy and support, it helps instructors communicate ideas more effectively by augmenting their content with touch, gestures and digital ink.

# Simple to **use** Simple to **deploy** Simple to **support**

**Designed for the simplicity instructors need.** Pens write, fingers move and gesture, erasers\* erase – all automatically, without having to learn new application menus or commands. Markup any content with true walk up and use simplicity, so everyone can benefit from your technology implementation.

## **Backed by SMART quality**

Every SMART display undergoes rigorous quality testing to meet world-leading safety and regulatory compliance standards, making it an investment you can count on for years to come.

## **Warranty coverage**

Protect your investment with a best-in-class full-coverage warranty and service plan options.

## **Technical support**

Expert support, tons of resources and a thriving community of educators to tap into helps set you up for success.

## **SMART Remote Management software**

Easily support technology from the comfort of your office. SMART Remote Management software, included with SMART displays with iQ for the duration of your product warranty, lets you give remote technical support and reduces classroom visits.

## **Add-on SMART accessories**

Complete your AV installation with accessories including SMART Document Camera, height-adjustable mobile and wall stands, OPS PC modules and more.
