

Winning Loyal Clients, Together

AVI-SPL is your strategic Synergy program partner. Together, we develop happy, loyal customers who value their JLL workspaces. We expertly guide innovative technology implementations that optimize TCO and elevate the human experience of work at the same time.

When we align early in client planning, we capture the greatest savings by making crucial technology decisions at the architectural design phase. This is how we lock in the most advantageous pricing, accelerate delivery times, and craft sustainable solutions that win loyal clients.

Executed MSA

Our Strategic Synergy Partner MSA covers the Americas, which enables quicker contracting and turnaround time.

Avoid Schedule and Budget Risks

Previously dictated timelines mean we must remain on schedule. Timely awards of all project phases provide lead time that allows us to work backward from the delivery date. The AVI-SPL team communicates and collaborates seamlessly with all stakeholders. Together, we create a project-specific punch list to ensure project readiness for our specifically defined scope. Our size, scale, and partnerships with manufacturers lead to preferential lead times and avoidance of delays.

Bench Strength

- 60+ local offices across N. America, Europe, and Asia, plus a global network of vetted partners
- 4 Global Service Operations Centers in the U.S., U.K., and EMEA
- 3,300+ employees globally
- Nearly 1 million conferences monitored each year

Financing/Leasing Options

Our financial solutions reduce the total cost of ownership of client technology and conserve operating capital. Flexible options offered through AVI-SPL Global Financial Services include leasing and Collaboration as a Service (CaaS). CaaS bundles collaboration hardware and software with support costs into one predictable payment.

Your Digital Transformation Partner

COVID-19 has changed the world as we knew it. The pace, nature, and scale of change are unprecedented. Organizations must act swiftly to develop, test, and rollout new hybrid work strategies. *Technology will be a key enabler.* AVI-SPL is ready to help you respond quickly and deliver a hybrid digital workplace that connects and engages on-site and remote teams.

[The Hybrid Workplace Roadmap](#)

The Hybrid Workplace

Journey to a sustainable future of work

Transform your clients' business continuity plan into a long-term digital workplace strategy that sustainably supports a hybrid approach to work. A hybrid workplace provides the flexibility to work productively in the office or at home and gives business leaders the adaptability to respond to the next global event.

The new hybrid workplace must:

Deliver long-term business continuity

Support physical and emotional well-being

Empower employee connection

Deliver a Positive Workplace User Experience

Hybrid workplace solutions include AVI-SPL Symphony, our user experience management application for collaboration technology.

- With Symphony, support teams can monitor meetings, manage technology devices, and automate routine workflows, from anywhere.
- Features include monitoring, room control, scheduling, ticketing, and analyzing the supporting collaboration technology estate and meetings.

AVI-SPL simplifies the journey to the hybrid workplace by transforming temporary fixes into sustainable solutions. We design collaboration solutions that represent the future of work, and that can adapt to changing needs.

AVI-SPL + JLL

Partners in Hybrid Workplace Collaboration

Together, AVI-SPL and JLL simplify the journey to the hybrid workplace by transforming temporary fixes into sustainable solutions. We design collaboration experiences that represent the future of work, and that can adapt to changing needs.

We offer world-class communications and collaboration solutions, leading-edge designs, streamlined deployment, and exceptional customer satisfaction. We extend client savings beyond cost and time. We create new value that leads to happy and loyal lifetime clients for JLL. We do this by owning the client outcome and delivering on our promises.
