GOVERNMENT BUYING GUIDE

TAA
COMPLIANT

TOP TAA PRODUCTS

L legrand® | AV

WHAT ARE TAA COMPLIANT PRODUCTS?

TAA compliant products are those that are manufactured or "substantially transformed" in the United States or in a TAA designated country with which the U.S. maintains a trade agreement and regards as a reliable or acceptable procurement source.

Legrand | AV's TAA compliant products are approved to be used in United States government projects and facilities.

# TAA COMPLIANT SOLUTIONS BY LEGRAND | AV

When it comes to technology solutions for the federal government, there's no room for error - which is why Legrand | AV's strong warranties and extreme reliability have made them a trusted partner for years. As the most comprehensive AV partner for common applications such as mission critical command and control centers, secure conference rooms and digital signage communication, Legrand | AV allows for one-stop shopping with a wide range of TAA compliant products meeting the strictest government requirements.

This guide will take you through Legrand | AV's top TAA compliant products. You read that right, **every single product shown in this guide holds the TAA certification.**

C2G®

The USB-C® Dual Display Docking Station is ideal for those extra connectivity demands at the desk or on the go.

C2G54535

This pocket-sized device extends the distance of a USB device to a host computer up to 150 ft., without the need to install drivers offering true plug-and-play technology.

29341

This amplifier reduces noise in commercial environments, goes into standby mode to save power, and is designed for installation in plenum air spaces.

FOR YOUR IMAGE

Having coined the term "the silver screen," Da-Lite has been the leading producer of high-quality commercial projection screens globally for 100 years.

Made in the United States, Da-Lite's proprietary screen technologies are specified for the most demanding installations from military training simulators to boardrooms and classrooms.

Screen Surface Selection Calculator

Tensioned Advantage® Series

Showing Da-Lite's new cable drop feature, SightLine™, the Tensioned Advantage® screen in 21:9 gives the illusion of a floating screen and a cleaner look.

Advantage® Series

The Advantage® series is designed with ceiling trim in place eliminating the need for additional trim work after the screen is installed.

25940

Da-Lite's IDEA™ Screen features a projection-quality surface and can be used as a touch screen and as a magnetic whiteboard that can be written on with dry-erase markers.

Parallax® Stratos 1.0 is a front projection screen surface designed for high resolution up to 4K. Suitable for laser projectors with standard throw lenses, its dark gray appearance enhances image color and contrast, and is available in sizes up to 16' high seamless.

Parallax Stratos 1.0

DA-230 is a neutral gray coating with high gain and a moderate viewing angle. The increased gain of this surface makes it suitable for environments where ambient light is uncontrollable and a projector with moderate light output is utilized.

DA-230

## INNOVATIVE CABLE MANAGEMENT FOR THE MODERN WORLD

Individually, Wiremold and Connectrac are forces to be reckoned with, but having them both under the Legrand | AV umbrella allows the user to ensure a durable and secure cable run.

Wiremold's products are designed to withstand heavy usage and harsh environmental conditions while Connectrac offers flexibility by providing power and data connections in areas where traditional wiring or cabling may be difficult or impossible to install.

Wiremold's Overfloor Raceway Base and Cover installs over existing floor coverings and is both tamper-resistance and installer-friendly.

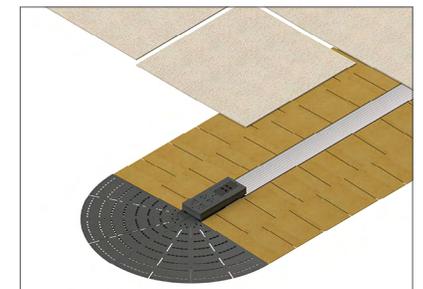

CT.XP-06-25.1c

Conveniently managing both power and data cables, the Connectrac Express Kit works best under carpet tile for both retrofit and new construction applications.
