

# SMART SOLUTIONS FOR BUSINESS

Innovations for today's workplace

## Transforming How You Do Business

SMART displays and software help teams collaborate – in any work environment.

The way we work is changing, and your technology needs to keep pace. SMART solutions enable more productive and effective collaboration leading to faster results – moving your business forward.

## We make technology seamless

SMART solutions create dynamic workspaces that unlock everyone on your team, so they can all contribute from any location or device.

### FLEXIBLE

Plug and play.

Choose the display, conferencing platform and peripherals that work for your environment and needs.

### CONVENIENT

Any file type.

Write over any file type and save notes in popular file formats to continue where you left off.

### COLLABORATIVE

Anywhere, anytime.

Anyone can follow along and contribute from anywhere in the world and from any device.

# DO MORE IN YOUR WORKSPACES

Today's workflows are about going beyond communicating to collaborating. SMART has spent 30 years designing interactive displays and software to provide unparalleled collaborative experiences.

Whether your technology needs are for boardroom presentations, remote training or open brainstorming – SMART has you covered.

# UNPARALLELED COLLABORATIVE EXPERIENCE

SMART solutions enable faster breakthroughs, more informed decision-making and enhanced productivity – mitigating the risks that come with missed and miscommunication.

## SMART Board® Pro series

Ready to use when you walk into the room. No training needed: just pick up a pen and write. With iQ embedded computing, SMART interactive displays are the digital hub of your workspaces.

## SMART Board MX Pro series with iQ

The user and budget friendly solution to boosting team productivity. The SMART Board MX Pro series has all the interactive tools teams need to collaborate at a great value.

## SMART Board 7000R Pro series with iQ

With next generation writing precision, intuitive tools and quick connectivity, the 7000R Pro series marries powerful collaboration features with a simple, intuitive user experience.

## iQ makes everything one touch away

SMART Board displays with iQ put everything you need in one place. The embedded computer offers one-touch access to SMART software applications and collaboration tools including a whiteboard, web browser, and wireless screen sharing from any Android™ (Google Cast), iOS® (AirPlay) and Windows® (Miracast) device – without plugging in hardware or installing apps.

AVAILABLE WITH  
Windows 10 Pro on  
an Intel®-powered  
OPS PC

## SMART OPS PC: The power of Windows® 10 Pro in your display

Access Microsoft® Office files and all your applications on a full Windows 10 Pro computer right at the display for true walk up and use simplicity. The OPS PC allows for a simple, standardized deployment in organizations, and provides ease of mobility and flexible use for your display.

## SMART Board 7000 Pro series with iQ

The first generation of our flagship interactive display series, the 7000 Pro provides many of the same powerful collaboration features as the 7000R series, plus lag-free precision in touch and digital ink at an attractive price point.

## SMART Podium™ 624

Empower business professionals, trainers, first responders and military personnel to communicate more easily and effectively, in the workplace, in the field, or from home. The SMART Podium with battery-free pen works with Windows or Mac OS computers to provide touch, gestures and digital ink while video conferencing, or while projecting an image to a projector or display.

## Collaboration Software

Designed to leverage the power of SMART interactive displays, our software options connect teams and enable them to share and interact with content in ways you won't believe until you experience it.

## SMART TeamWorks

### Plan. Collaborate. Recap.

With one-touch meeting launch, a connected whiteboard, wireless screen sharing and PDF summaries, SMART TeamWorks™ is your end-to-end collaboration solution. The whiteboard lets teams interact with all sorts of dynamic content and remote team members can add notes and files as easily as their colleagues in the room.

## SMART Meeting Pro

### Unbound workspaces

SMART Meeting Pro® visual collaboration software allows colleagues to create and capture ideas in the virtually unlimited interactive workspace. The workspace expands as you add images, files, links and notes – even over multiple displays and meetings – enhancing collaboration.

KEY FEATURES

Collaborate anywhere, naturally and seamlessly. **Only with SMART.**

**SMART Ink®** lets teams markup anything, anywhere, without an overlay layer, which means you can continue to navigate and interact with content while writing, without interruption. Plus, convert digital writing to text to insert into files or text fields. SMART Ink works with PDFs and Microsoft office files, and works fluently with Windows Ink.

With 16 or more\* **simultaneous points of touch** on iQ Android, and on Windows® and Mac® computers, **Simultaneous Tool Differentiation** lets multiple users write, erase, move and gesture at the same time without toolbars or menu selection.

*\*See comparison chart for more details.*

**Object Awareness™** detects touch, pens and palms automatically. Enjoy this consistent, leading touch and ink experience across platforms, taking the guess work out of using your technology.

Exclusive to 7000 and 7000R Pro, **Pen ID™** lets multiple team members write with different colored ink at the same time.

## MORE SMART SOLUTIONS

### SMART Document Camera

4K Ultra HD, UVC compliant

Capture analog content in high quality, even while video conferencing. The flexible, easy-to-adjust lens swivels to convert to a webcam in seconds, making this the ideal choice for working meetings with remote participants, or getting a closer look at projects in the field.

### SMART Electric Height-Adjustable Stands

Create easy-to-install collaborative spaces, anywhere

SMART's **mobile stand** with integrated power bar turns any space into a meeting space with only one cord to plug into the wall. SMART's **wall stand** helps save in expensive wall reinforcement, and provides up to 86" height adjustment, flexibly enabling hands-on collaboration and presentations to large audiences.

Fully UL certified and ADA compliant.

## TRAINING AND SUPPORT SERVICES

Partnering with SMART means we don't leave you to figure out how to use your collaboration solution – we help you achieve your goals. SMART provides training and has several installation and support services options to fit your needs and budget.

### Training

Access our online training courses and self-serve, how-to videos on our hardware and software solutions anytime, anywhere, so you can get the most out of your collaboration technology – from Day 1 onward.

### Support

SMART global support has the experience, knowledge and resources to ensure consistent, fast and effective support. SMART Service Plans provide flexible, scalable installation, software maintenance and support service level agreements to meet your needs.
