

Three Reasons Why You Need Smart Signage

Sharp has entered a new era in digital signage with the launch of 10 smart signage displays. So, why do businesses need smart signage? Here are three major benefits...

1

Built-in SoC (System on Chip)

Signage content can be displayed right out of the box without the expense of a media player.

2

Sharp Open Architecture Platform

Leading **3rd party software developers** create custom solutions for retail, office and other environments.

3

Enhanced Video Transmission

Content can take on new levels of depth and presence through a next generation, high-efficiency video codec.
