The Patent Pending HDMI Adapter Rings from C2G are the perfect addition to conference rooms, huddle spaces, lecture halls or classrooms to make sure that anyone can connect. Available in three different configurations, the C2G HDMI Adapter Rings provide ultimate flexibility to fit the needs of any space.

MOUNTING OPTIONS

Three different mounting options provide the flexibility for you to choose what best meets the needs of your room.

- Universal Cable Mount attaches directly to an HDMI cable (5-10mm diameter)
- Retractable Universal Mount attaches to any flat surface, like a table or lectern
- Retractable Table Box Mount attaches to a Wiremold® AVIP®, Extron® MAAP™, and FSR® IPS™ opening in a table box

ESSENTIAL A/V ADAPTERS

Don't worry about having the right connections anymore. Standard configurations include the adapters to connect nearly any device to the in-room display.

- USB-C® to HDMI
- DisplayPort™ to HDMI
- Mini DisplayPort to HDMI

Add even more connectivity with these optional adapters:

- VGA and Audio to HDMI
- Apple® Lightning® to HDMI

4K RESOLUTION

Maximize the performance of the in-room display and provide the detailed images required for analytical or detailed decision making. All adapters in the standard configurations support up to a 4K video resolution.

COLOR CODING

Each adapter is color coded with a band that saves time and frustration by making it easy to quickly identify the adapter you need, "I need the yellow one".

PULL TAB

Easily grab the adapters when you need them with the integrated Pull Tab. Also, the pull tab may be customized to feature your company or organization logo*.
