

HOW CAN I CONTROL MY PDUS WITH RACKLINK™?

CONTROL PDUS WITH RACKLINK™ VIA*:

- **Native User Interface:** Connect via IP to the built-in user interface to control the PDU from your computer, tablet or phone
- **Control System:** Connect via IP, RS-232, or Contact Closure to control the PDU with your control system
- **Cloud:** Connect directly to the cloud via a secure connection, or connect locally to a cloud agent that is communicating securely to the cloud
- **RackLink Partnerships:** Middle Atlantic has partnerships with leading control systems and cloud management services for out of the box integration, as well as an open API for compatibility any control system and cloud management service
- **WiFi:** Premium+ PDUs can connect via WiFi with a standard USB WiFi dongle
- **RESTful API:** Premium+ utilizes RESTful API for easy integration into any platform

*Control methods vary depending on PDU series (Premium+ and Select)
