Designed for anywhere people share information, connect with technology or command a space
Crestron 70 Series Touch Screens

Experience responsive, dynamic, and intuitive control

- ✔ Proximity Sensor detects motion and awakens screen upon approach
- ✔ Faster processing for a smoother, more responsive experience and frictionless scrolling
- ✔ Sharper screen resolution that communicates with perfect clarity
- ✔ As dynamic as any smart device. Matching experience with expectations

Express your identity and preferred experience

Development flexibility from out of the box to highly customizable:

Out of the box

All touch screens natively support Crestron Flex UC, Room Scheduling and residential applications right out of the box.

Configurable

Deploy a consistent user experience with Crestron .AV Framework™. Showcase brand identity. Customize icons, background, logos and screen savers.

Customizable

Build a completely custom UI using HTML5 or VT Pro-e®. Build on web based standards with easy, reusable components.
