

# ClickShare

## Make collaboration flow with one click

with ClickShare Present

ClickShare Present, the agnostic, wireless presentation system, truly makes sharing content effortless in any meeting room. No cables and no hassle for guests to share their screen and join the conversation.

You walk into the room with your laptop. ClickShare automatically detects your presence, connects you to the room display and devices. Instantly you're ready to start sharing content. All it takes, is one click to get effective collaboration flowing.

# Making presentation simple, easy and wireless

ClickShare Present brings easy wireless presentation to any meeting room. It makes collaboration better by sharing content from any device - laptop, mobile or tablet - on the central room display in seconds. No cables, no software to download, no training needed.

ClickShare Present empowers meetings with simple, one-click wireless content sharing. ClickShare completes the set-up with these features:

- **Simple, one-click experience**
- **Seamless collaboration**
  - Plug & play with the ClickShare Button for employees and guests
  - Workflow integration with the ClickShare App
- **Full BYOD experience**
  - Including Airplay, Google Cast and Miracast
- **Wireless presentation made easy**
  - Present & collaborate from your laptop without cable hassle.
  - Use the **4K canvas to share side by side in full HD**
- **Advanced collaboration**
  - Share your full screen, or a single window
  - Take snapshots of key moments
  - Control the shared computer with touch screen support\*
  - Ideate with annotation & blackboarding
  - Save & distribute your ideas
- **Tech-agnostic**
  - Perfectly works with your device, Windows or Mac.
  - Connects to any display and offers full BYOD with any screen mirroring protocol.
- **Enterprise-ready**
  - Secure, networked and cloud-managed, Packed with five years of coverage, access to analytics and regular software updates. Proven ROI.

\*features only available on the C-10 model.

## Encourage your unique way of working

The ClickShare Present range is designed to fit your business perfectly and evolve with it. With flexibility for the future built in, it's one of the smartest investments you can make in your meeting room.

### Designed for your network

Whether you want to connect one unit to the network via ethernet or create a dedicated VLAN for all ClickShare units, you can simply integrate seamlessly with your network.

### Built for the future

Our eco-friendly platform is designed with sustainability in mind. Authenticated and encrypted by default and governing futureproof security principles. Offering room calendar and booking.

### Secure by design

ClickShare was the first wireless collaboration technology to obtain ISO 27001 Certification, demonstrating our commitment to the right processes and structures for the highest international security standards.

### Management dashboard

Managing ClickShare across your business is simple with our XMS Cloud Management Platform. Units are discovered easily and added to the management console with key information available on a dashboard. Administrators can intervene remotely without interrupting the meeting.

### Insights integrated

Imagine having instant insights on how often meeting rooms are used and how people use ClickShare when things are hectic or quiet. With the insights module of the XMS Cloud Management Platform, you can understand behavior in the workplace and run your workspace more efficiently.

### Always up-to-date

The new ClickShare is always new. It can be updated automatically, at scheduled times with your XMS Cloud Management Platform console or manually. You can be sure you have the latest version of wireless conferencing to give you the competitive edge.
