Has worked for Alpha for 6 years.

Graduated top of class

to the team!

The background of the slide is a photograph of a person's hands typing on a laptop. The laptop screen displays a data analytics dashboard with various charts and graphs. The dashboard includes a header with the numbers 32,281 and 31,026, and several bar and line charts. The overall scene is dimly lit, with a blue tint over the image.

Reimagine Your Digital Employee Experience

Your employees are everywhere nowadays — at home, in the office, and on the frontline. Reach them on their favorite communication channels and personalize their digital employee experience to help them thrive.

Key Features and Benefits of Modern Employee Communications

Easy-to-use content management system and products for employees that encourage creativity, collaboration, and productivity.

Increase employee engagement by publishing targeted, relevant content and information.

Create communications efficiency with streamlined content creation and publishing to digital signage, desktops or mobile devices.

Decentralize communications with control by enabling others to create and publish content to employees.

Send emergency alerts to inform employees about dangerous weather conditions or safety measures.

Measure and optimize the performance of your communications in real-time to ensure you are reaching and engaging everyone.

**Digital Employee Experience Solutions for
Business and Employee's Needs**

Digital Signage

Create digital signage content using professionally designed templates to creating custom layouts. Build playlists and automate content delivery to every video player and screen across your workforce.

Mobile App

Make every employee feel like you created a digital employee experience that is just for them. Personalize content and digital resources for each employee based on their role, location, or interests.

Web Experience

Transform the web browser into the front door of your digital employee experience for desktop and laptop users. Personalize each employee's experience with relevant content and quick access to their enterprise systems, applications, and digital files.

Email

Create and send email messages or dynamic newsletters targeted to employee segments. Then use in-depth analytics to know your emails were sent, received, opened — and discover the best day and time of day to send.

Workspace Reservations

As your employees return to your offices, help them find and reserve safe and flexible meeting room and workspaces. Bring the hybrid work experience to life through digital signage, desktops and mobile devices that increase collaboration and productivity.

Wayfinding

As employees come back to the office and explore hybrid work models, inform and empower them with interactive screens to navigate updated physical workplaces. Design engaging, interactive wayfinding to navigate people to places, and directory experiences that connect employees.

Integrations

Streamline and connect your employees to their everyday systems, applications, and data while increasing the ROI of your existing technology ecosystem. Enable more seamless user authentication or create dashboards with the right data sources for the right worker.

Analytics

Stop guessing how your employees engage with your emails, intranet, digital signage and other communications channels. Use in-depth dashboards and reports with filters to easily understand how your content is performing by channel, job type, department or location.
